

TY INTELLIGENCE.

THE HALO.

The Brilliant Atmospheric Phenomenon of Last Evening, and How it was Produced. Last evening the moon was surrounded by a halo of more than usual brilliancy and distinctness. At 9 o'clock the moon was about 45 degrees above the horizon, and the brilliant circle by which it was surrounded had a radius apparently of about twenty degrees, which actual measurement would have shown to be a little less than twenty-two degrees. The inner edge of the halo was clearly defined, but on the outer edge the bright light was gradually merged in darkness. Within the circle the sky was of a very dark color, darker than it was for a distance of several degrees without the halo; and just within it, at the extreme eastern end, glittered the planet Venus even more beautiful than usual because displaying her beauty on such an ample and unbroken background. According to the popular impressions prevailing, the appearance of such phenomena is regarded as a forerunner, in winter time, of snow, a theory to which science lends assent. The halo is formed, in summer as well as in winter, by the refraction of the light of the sun or moon, as the case may be, through crystals of ice floating in the atmosphere. In summer, when the phenomenon is frequently observed, the condensed vapor of the atmosphere at a moderate elevation is frozen, even in the very hottest weather; while in winter the ice crystals assume the shape of flakes of snow or matter in what is popularly called snow crystals. The effect is the same, and the rays of light from the sun or moon is refracted at such an angle as to make it coincide with all other refracted rays in forming the halo with a radius of twenty-two degrees. The space within the circle is darker than the space without it, because from no part of this space can a ray of light refracted by ice crystals reach the eye of the observer. Elaborate mathematical calculations show that, in the case of a halo around the sun, when the different colors of a halo around the sun, when the different colors of the prism are usually apparent, the inner edge being colored red and the outer a pale blue, the deviation of the red rays of the sun's light is 21 degrees 37 minutes, and that of the violet rays 22 degrees 22 minutes. The average of eighty-three measurements of the radius of the red edge of the halo is 21 degrees 36 minutes, which is almost identical with the result of the theoretical computation. The ordinary halo of 22 degrees radius is formed by the refraction of the rays through the simplest form of ice crystals, which are right prisms terminated by hexagonal bases perpendicular to the sides. The alternate faces of such prisms are inclined to each other at an angle of 60 degrees. But the angle formed by either base and one of the sides of faces is one of 90 degrees, and where the rays are refracted through the lower portions of the prism, a second halo is produced, having a radius of about 46 degrees, and exhibiting phenomena similar to the inner halo already described. In this circle, as in the former, actual observation coincides almost exactly with theoretical computation, the deviation of the red rays through a prism of ice having an angle of 90 degrees being found to be 46 degrees 6 minutes, and that of the blue rays 46 degrees 10 minutes, while the average of the best observations gives a radius of 46 degrees 40 minutes to the brightest portion of the outer halo. A third halo has occasionally been seen around the sun, having a radius of about 60 degrees, but only three observations of this rare phenomenon are on record, and its exact dimensions are not well determined, nor can it be accounted for satisfactorily on scientific principles, as in the case of the first and second halos. It is quite an easy experiment to produce artificial halos. The experimenter may crystallize some salt like alum upon a glass plate, and on looking through this plate at the sun or a candle he will observe three distinct circles of light, possessing the same characteristics as the natural halo. A few drops of a saturated or strong solution of alum, spread on a plate of glass, will soon cover it with a layer of minute crystals, having the shape of a regular octahedron, with truncated angles, or angles formed by planes oblique to some of the faces. The different faces are inclined to each other at angles of 70, 90, and 110 degrees, and the three halos observed are formed by the refraction of rays of light through corresponding pairs of faces inclined to each other at the different angles severally named.

THE HORNED STREET FIRE.

The complete destruction of the building at the corner of Horned Street, by fire, on Saturday morning.

Table with 2 columns: Item and Amount. Includes Royal of Liverpool, Merchants, and various stocks.

ON LUMBER IN YARD.

Liverpool and London and Globe of London. \$1000 Imperial. \$1000

LOCAL ODDS AND ENDS.

Beware of alcoholic stimulants this cold weather. Be changed to the best of the season. There is snow in prospect.

MEETING OF CONVEYANCERS.

An adjourned meeting of conveyancers of Philadelphia will be held in the lecture room of the new Mercantile Library, on Fourth street, this evening.

OBSCURE PUBLICATIONS.

A degraded specimen of humanity, named Richard Gris, was arrested at Ninth and Market streets on Saturday last, while endeavoring to dispose of obscene publications.

JOHN BROWN.

On Saturday afternoon, at Thirtieth and Milon streets, the celebrated sweepster John Brown was arrested by the constable in the discharge of his duty.

SCURRIAN THIEVES.

Patrick Kelley, Edward O'Leary, George Hillen, and John Lovell, lads whose average range from fifteen to seventeen years, were arrested on Saturday night by the Thirtieth Street Police, on the charge of committing petty robberies in Manayunk. They will have a hearing at the Central Station this afternoon.

RECKLESS DRIVING.

A drayman named Thomas Beckman, while driving at a reckless pace along Delaware avenue on Saturday, ran over a little girl, injuring her badly about the head and body.

TOOLE.

John Bremer was arrested at Second and Thompson streets yesterday afternoon, having in his possession a lot of stationery tools, supposed to have been stolen. Alderman Eggleston committed him to answer.

RABBIT CANINE.

A rabid canine was yesterday killed by a police officer at Broad street and Columbia avenue.

RAILROADS.

Annual Meeting of the Stockholders of the North Pennsylvania Railroad Company.

The annual meeting of the stockholders of the North Pennsylvania Railroad Company was held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9. Mr. Thomas Smith in the chair; Secretary, Edward Armstrong. The minutes of the last annual meeting were read and approved.

Table with 2 columns: Item and Amount. Includes Total earnings, Total expenses, and Balance of earnings.

THE PHILADELPHIA AND READING RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Reading Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE CHESTER VALLEY RAILROAD COMPANY.

The annual meeting of the stockholders of the Chester Valley Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA PASSENGER RAILWAY COMPANY.

The annual meeting of the stockholders of the Philadelphia Passenger Railway Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND WASHINGTON RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Washington Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND PITTSBURGH RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Pittsburgh Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND BALTIMORE RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Baltimore Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND NEW YORK RAILROAD.

The annual meeting of the stockholders of the Philadelphia and New York Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND PHOENIX RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Phoenix Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND WASHINGTON RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Washington Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND BALTIMORE RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Baltimore Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND NEW YORK RAILROAD.

The annual meeting of the stockholders of the Philadelphia and New York Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND PHOENIX RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Phoenix Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THE PHILADELPHIA AND WASHINGTON RAILROAD.

The annual meeting of the stockholders of the Philadelphia and Washington Railroad Company, held at the company's office, No. 407 Walnut street, on Saturday, Jan. 9.

THIRD EDITION.

WASHINGTON.

New Financial Measure of Senator Sumner's—The Test Oath Abused and Measures Taken to Protect It.

Senator Sumner's New Bill. WASHINGTON, Jan. 10.—Senator Morton will present the bill prepared by him forbidding the fitting out of vessels of war by foreign governments in ports of the United States.

FROM WASHINGTON.

Senator Sumner's New Bill. WASHINGTON, Jan. 10.—Senator Morton will present the bill prepared by him forbidding the fitting out of vessels of war by foreign governments in ports of the United States.

CONGRESS.

WASHINGTON, Jan. 10.—The Senate was called to order by the President, who then delivered the body several communications from the Secretaries of War and Navy, in answer to resolutions of the Senate, relative to the use of lands for military and naval purposes.

FROM EUROPE.

The French Censorship of Foreign Journals Abolished—Baron Haussmann Arraigned—United States Bonds Higher than British Consols—Spanish Politics.

PARIS, Jan. 10.—The law in relation to public prints has been still further modified. The censorship of all foreign journals has been abolished, and the right to sell all French papers in the streets restored.

BARCELONA, Jan. 10.—The party of the Left have joined with other parties in demanding the arraignment of Baron Haussmann. The Government has decided to allow Ledra Rollin, Tibaldi, and others, to avail themselves of the amnesty recently granted for political offenses.

LONDON, Jan. 10.—A writer in the Daily News to-day, reproaching Sampson's sneers at American credit, recently published in the Times, proves that by the difference in exchange United States five-twenty bonds at 80 are really higher in price than British consols at 92.

LISBON, Jan. 10.—Later mail dates from Montevideo just received announce that the great bank in that city, which was recently compelled to suspend, has resumed.

MADRID, Jan. 10.—Senor E. Montero Rios, recently Under Secretary of Justice, has been appointed Minister of Justice, vice Senor C. Ardanaz, resigned.

ANTWERP, Jan. 10.—Petroleum opened firm at 60 1/2.

PARIS, Jan. 10.—Cotton opened quiet at 157 1/2.

PARIS, Jan. 10.—The Bourse closed quiet. Renten, 74 1/2.

NEW YORK, Jan. 10.—United States five-twenty opened active and firm at 92.

NEW YORK, Jan. 10.—Arrived, steamships Nebraska and Tripoli, from New York.

CONGRESS.

WASHINGTON, Jan. 10.—The Senate was called to order by the President, who then delivered the body several communications from the Secretaries of War and Navy, in answer to resolutions of the Senate, relative to the use of lands for military and naval purposes.

WASHINGTON, Jan. 10.—The House was called to order by the Speaker, who then delivered the body several communications from the Secretaries of War and Navy, in answer to resolutions of the House, relative to the use of lands for military and naval purposes.
